Dear Parents,

We are once again partnering with USATestprep at Swainsboro Middle School. USATestprep, Inc. is an online resource to help high, middle, and elementary school students effectively prepare for high-stakes tests. They have recently upgraded their web site this past summer so that students will be able to create individual login accounts. Instructions are provided below. To create the new account, you'll need account id: swainsborocrcr. You'll also need the student activation code: newton22.

Looking forward to a great year,

SMS
